--	---	--	---

1 Executive Summary

This schedule sets out the monthly charge for the Smart Inc Platform for three programmes. Kriel ESD and SEDFA are charged an average monthly cost, broken down by the key services that run the Platform. Sibanye Technical Training is charged a monthly fee made up of its standard features, customisation, PWA support, courses and AI coach, with the once-off development cost amortised over three years.

Programme	SMEs	Basis of charge	Monthly charge
Kriel ESD	26	Average monthly cost of key services	R9,850.63
SEDFA	33	Average monthly cost of key services, including the external system update	R16,170.48
Sibanye Technical Training	61	Feature-based monthly fee; development amortised over 36 months	R37,450.72
Total	120		R63,471.83

2 Programme Scope

Programme	SMEs	Documents	Scope
Kriel ESD	26	153	Enterprise development programme: SME records, compliance documents and agreements, dashboards and reporting.
SEDFA	33	101	Enterprise development programme as above, with integration to an external financial system.
Sibanye Technical Training	61	305	Technical training programme across three regions, averaging five documents per SME, with courses, an AI coach and a training management page.

Document counts for Kriel ESD and SEDFA are Platform records as at 30 September 2026. Sibanye Technical Training figures are the programme's planning volumes.

Platform features included for every programme

AI capabilities Page-aware assistant, guided navigation and gap-analysis support.	WhatsApp and email WhatsApp integration and email notifications.	Offline and PWA Installable app, offline operation, data synchronisation and push notifications.
---	--	--

Agentic support

AI tools that query live programme data.

Background automation

Scheduled reminders for MOV, KPI, compliance, tasks and appointments.

Document vault

SME records, compliance documents and agreements.

3 Kriel ESD

Kriel ESD is charged an average of **R9,850.63 per month**, made up of the key services below.

Key feature	Covers	R per month
Gemini API key	AI assistant, gap analysis and guide-me	R1,450.00
Anthropic (Claude) API key	AI reasoning and agentic support	R1,650.00
Database and authentication	Firebase Firestore and user login	R1,880.40
Document storage	Firebase Storage for compliance documents and agreements	R820.25
Cloud functions and scheduled jobs	Reminders and background automation	R945.30
Web hosting and AI server	Vercel web hosting and the AI backend server	R1,100.00
Email	Brevo transactional and reminder emails	R480.00
WhatsApp messaging	WhatsApp integration and staff agent	R690.00
Monitoring, backups and domain	Logging, backups, domain and SSL	R834.68
Monthly charge		R9,850.63

4 SEDFA

SEDFA is charged an average of **R16,170.48 per month**. The charge includes an external system update of **R300.00 per SME**, which for 33 SMEs is **R9,900.00** (61.2% of the monthly charge). The Platform reads each SME's financial and revenue data from the external financial system (QuantNow), which supports the Finance page and the revenue-based KPIs used in programme reporting. The update covers third-party access to that system, daily synchronisation and monitoring of the connection, credential management, error handling and reconciliation of SME revenue data.

Key feature	Covers	R per month
External financial system update	33 SMEs at R300.00 per SME (QuantNow)	R9,900.00
Gemini API key	AI assistant, gap analysis and guide-me	R480.00
Anthropic (Claude) API key	AI reasoning and agentic support	R520.00
Database and authentication	Firebase Firestore and user login	R1,100.00
Document storage	Firebase Storage for compliance documents and agreements	R380.25
Cloud functions and scheduled jobs	Reminders and background automation	R640.00
Web hosting and AI server	Vercel web hosting and the AI backend server	R1,100.00
Email	Brevo transactional and reminder emails	R410.00
WhatsApp messaging	WhatsApp integration and staff agent	R525.00
Monitoring, backups and domain	Logging, backups, domain and SSL	R1,115.23
Monthly charge		R16,170.48

The external system update moves by R300.00 for each SME added to or removed from SEDFA.

5 Sibanye Technical Training

The Sibanye Technical Training charge is a single monthly fee of **R37,450.72** for 61 SMEs across three regions. It covers the standard Platform features, the customisation for the programme, PWA support, the courses and the AI academy coach, together with the Quantilytix System Maintenance. The once-off development cost is amortised over three years and forms part of the monthly fee.

Key feature	Covers	R per month
Standard features	Platform, hosting, database, email and WhatsApp messaging, AI services, dashboards and document vault	R10,266.74
PWA and offline support	Installable app, offline operation, data synchronisation and push notifications	R1,700.00
Customisation	Sibanye Technical set-up: three regions, enrolment, training page and reporting	R6,100.00
Courses	Course builder, course player, assessments and course media	R5,233.98
AI academy coach	Learner coaching and AI extraction of course content	R5,700.00
Quantilytix System Maintenance	System-level updates, security, monitoring and support	R6,450.00
Monthly fee: once-off development, amortised over 3 years	Development bundle of R72,000.00 over 36 months	R2,000.00
Monthly fee		R37,450.72

Unit rates: R12,483.57 per region, R613.95 per SME and R122.79 per document (3 regions, 61 SMEs and 305 documents).

Training capabilities

- **Courses:** course builder and course player, including lessons, assessments and learning materials.
- **AI academy coach:** AI coaching for learners, and AI-assisted extraction of course content from uploaded material.
- **Training page:** a page to create the training programme, define its regions, enrol SMEs and manage their enrolment status.
- **Attendance and reporting:** mandatory daily clock-in, timesheets and training dashboards.

Once-off development, amortised over three years

Once-off development bundle	Term	Per month
Development and configuration of the Platform for Sibanye Technical Training, including the development and team platforms (source control, build and deployment, test environments, project management and design tooling)	36 months	R2,000.00
Bundle: R72,000.00		R2,000.00

Quantilytix System Maintenance

The fee includes **R6,450.00 per month** for Quantilytix System Maintenance: system-level maintenance of the Quantilytix system on which the Platform runs, covering updates, security patching, monitoring and support. It is shown on its own line so that maintenance of the underlying system is distinguished from the programme's own features.

6 Frozen Modules

Kriel ESD and SEDFA have recorded almost no intervention activity in the last 90 days (SEDFA none, Kriel one MOV and two active SMEs). Intervention monitoring, reminders and automation for these programmes are frozen and resume in the month

in which at least 10 SMEs and 10 MOV records record activity within a 90-day window. SME records, the document vault, hosting and backups remain live, and all data is retained.

7 Basis of Charges

- **Kriel ESD and SEDFA:** an average monthly cost, built from the key services that run the Platform for the programme. Smaller services are grouped under monitoring, backups and domain.
- **Sibanye Technical Training:** a monthly fee for the standard features and the programme-specific capabilities. The once-off development cost of R72,000.00 is spread evenly over 36 months.
- **SEDFA external system update:** charged at R300.00 per SME per month.
- **Services:** Google Gemini and Anthropic (AI), Google Firebase (database, authentication, storage and functions), Vercel (hosting), Brevo (email) and WhatsApp messaging. Charges are reviewed against actual usage.
- **Volumes:** Sibanye Technical Training volumes (61 SMEs, three regions, five documents per SME) are planning figures and will be reviewed against actual enrolments once recorded on the Platform.
- **Amounts:** all amounts are in South African Rand and are stated to the cent.
